CUFF SIZE CHART

Wrap a flexible measuring tape around your wrist where you normally wear your bracelet.

Keep the measuring tape snug against your skin, without pulling it too tightly.

Compare your wrist measurement with the cuff bracelet size chart below to find your size.

Size Tip: If you are between sizes or prefer a looser fit, we recommend choosing the larger size.

Cuff Size	Wrist Circumference (mm)	Circumference (inches)
S / M	150-165 mm	5.91-6.50”
M / L	165-185 mm	6.50-7.11”
